

Device Permissions

In the event your customer receives an alert letting them know their camera and or microphone settings are denied please instruct them to follow the steps below depending on their device to allow permissions. Follow the same directions if your phone's default browser is Chrome.

iOS Permissions

iOS Mic / Camera

Step 1: Open the **Settings** app on your phone's home screen.

Step 2: Scroll down until you see **Safari or Apps** depending on your iOS version.

iOS 17 and older

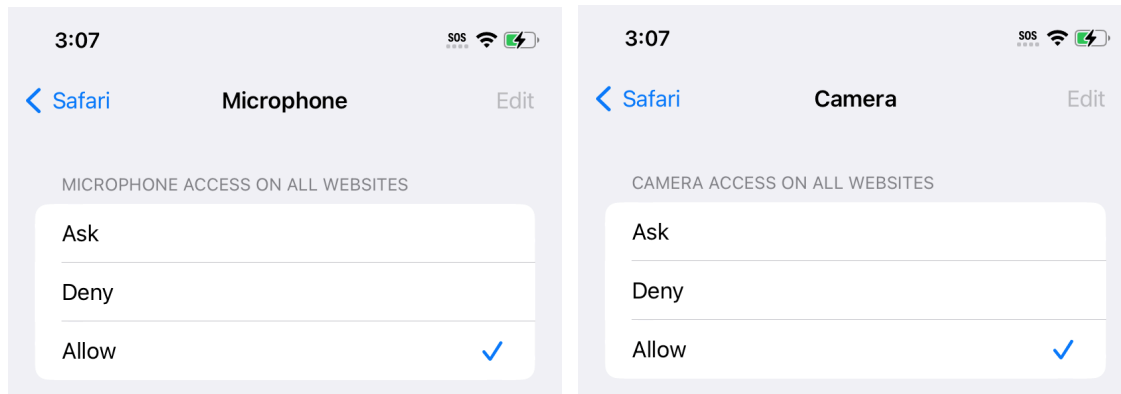

iOS 18 and up

Step 3: Next, select **Microphone and/or Camera** depending on which permission is not working

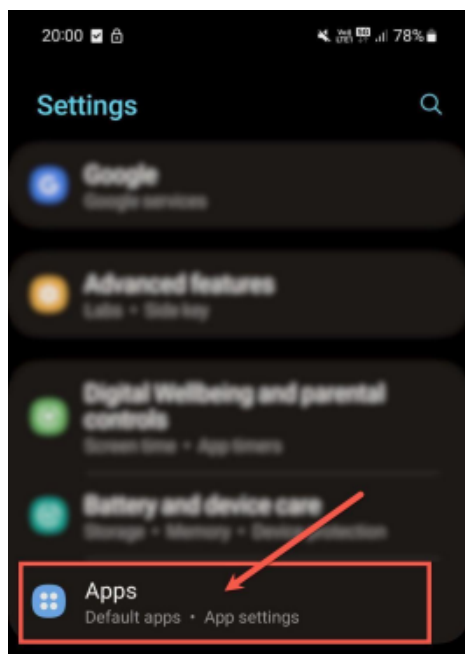

Step 4: Select the **Allow** option for both Microphone and Camera

Android Permissions

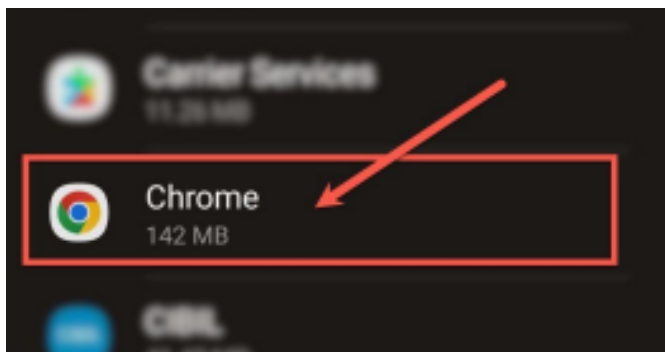

Android Mic / Camera

Step 1: Open the **Settings** app on your phone and go to **Apps** or **Apps and notifications**.

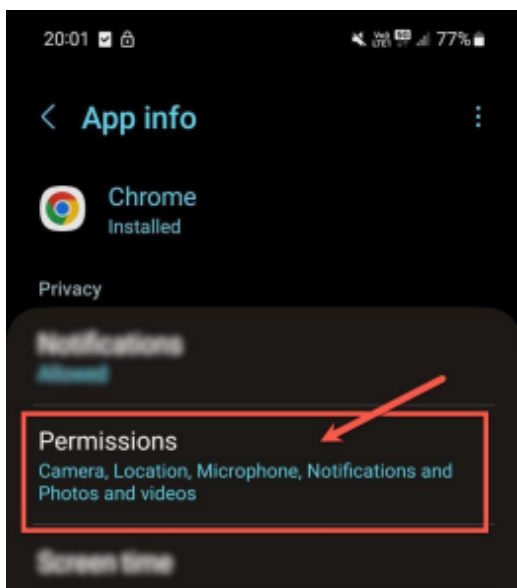

LiveSwitch

Step 2: Scroll down to locate **Chrome** on the app list.

Step 3: Next, go to **Permissions**. Here, you'll find a list of permissions for Chrome.

Step 3: Tap on the **Microphone** or **Camera** option and select **Allow only while using** the app.
